

SIMI – Sociedade Internacional de Montagens Industriais, S.A., recognizing the importance of Quality, Safety and Environment, in providing its services, as vital means to achieve success, establishes the following commitments and strategic guidelines:

- Promote effectively internal communication and training to all employees;
- Innovate and improve continuously all the processes and constructive methods in order to improve the Quality of our service and assure the Safety of people and goods;
- Comply with all legal, regulatory or other requirements that the company endorses in relation to Quality, Safety and Environment, ensuring compliance with the requirements stipulated in ISO 9001:2015, OHSAS 18001:2007 and ISO 3834-2:2005;
- Based on the organizational context SIMI intends to position itself as a credible partner with its clients and stakeholders in all markets in which it operates, with particular focus on the emerging markets, identifying their needs and expectations in order to improve continuously their level of satisfaction;
- To prevent risks associated with our activity in order to achieve zero accidents / mistakes;
- To prevent health injuries and damages of employers;
- To prevent material and environmental damages;
- To improve continuously the effectiveness of the System and the performance of Quality, Safety, Health, Industrial Hygiene and Environment to reduce the costs associated to the non accomplishment of the requirements regarding those issues.

The Board of Directors declares its commitment to conduct the actions aimed at implementing and disseminating the revised Policy on this date.

Lisbon, March 26, 2018

Board of Directors,
